Summary

Enthusiastic MERN Stack Developer with a solid foundation in JavaScript, React, Node.js, Express, and MongoDB. Experienced in building small to mid-scale projects, developing APIs, and implementing responsive interfaces. Quick learner with strong problem-solving skills and a passion for modern web development.

Experience

Full Stack Developer Intern

Clifton Corporation / Aspino HR Services Pvt. Ltd., Pune, Pune
Jan 2025 – Mar 2025

- Built and maintained full-stack features using Flask (Python) for APIs and ReactJS for UI components.
- Worked with MongoDB and SQL databases while assisting in debugging, testing, and performance optimization.
- Collaborated in an agile team using Git for version control and daily development workflow.

Projects

Real-Time Chat Application

- Tech Stack: MERN (MongoDB, Express.js, React, Node.js), Socket.IO, JWT, Cloudinary
- Developed a real-time chat system with authentication, online presence, seen messages, and media sharing; deployed on Render & Vercel.
- GitHub: https://github.com/Shaikh-Ayaz04/Chat-App
- Live: https://chat-app-lovat-beta.vercel.app

AI-Powered Text Summarization Web App

- ReactJS • Flask (Python) • NLP • MySQL
- Built a full-stack text summarization app using NLP with a Flask API and ReactJS frontend.
- Implemented RESTful endpoints for AI-generated summaries and stored data securely in MySQL.
